

New Jersey Natural Gas

Direct Install Participating Contractor Agreement

Introduction:

The Participating Contractor Agreement (“Agreement”) is between the contractor submitting this agreement (“Participating Contractor”) and New Jersey Natural Gas Company (“NJNG”). This Agreement sets out the terms and conditions under which the Participating Contractor shall participate in the Direct Install Program, hereinafter referred to as “the DI Program,” offered by NJNG.

NJNG has established the DI Program as a comprehensive commercial energy efficiency program that offers financial incentives and financing for qualifying energy efficiency measures to NJNG customers, who are property owners, tenants, or managers (customers) of commercial buildings. The DI program includes the opportunity for eligible commercial customers in NJNG service territory, who apply for incentives and an On-Bill Repayment Program (“OBRP”), to make the purchase of qualifying energy-efficient equipment, including but not limited to heating, water heating, air-conditioning, motors, and commercial kitchen equipment more accessible. In order for an NJNG customer to be eligible to participate in the OBRP Program, customers must pass NJNG’s internal OBRP screening process. All OBRP financing agreements will be net of rebates for which customer qualifies, and subject to aggregate lending caps.

Under this Agreement, the Participating Contractor will contract with eligible customer to provide for the purchase and proper installation of eligible energy-efficient equipment. The complete list of qualifying measures eligible for the DI program is available in the [Contractor Portal](#) at www.savegreenproject.com. Qualifying projects do not include any electric or natural gas energy-efficiency measures or energy-efficiency equipment, or services purchased, contracted for, or installed prior to the DI Program start date. Incentives are not available for any measures served by deliverable fuels and any electric equipment served by municipal electric utilities.

Incentives are available to customers for the purchase and installation of qualifying energy-efficiency measures at the location where the qualifying project is to be installed. NJNG will not offer financial incentives for the same eligible measure to those customers, who have received financial incentives or rebates from their overlapping electric utility . The value of the incentives for qualifying projects will be based upon a formula that will be contained within a screening tool established by NJNG. NJNG will have the final decision on the determination of incentives according to this formula. NJNG reserves the right to change the measures and incentives at any time throughout the program cycle. Incentive levels will be affected by the level of comprehensiveness of the project.

Each Participating Contractor, who intends to work with customers seeking to participate in the DI Program within the NJNG service territory, must sign this Agreement and maintain good standing in the DI Program.

¹Overlapping electric utilities for NJNG customers that are participating in the DI Program include Atlantic City Electric Company, Jersey Central Power and Light, and Public Service Electric and Gas Company.

Benefits to Participating Contractor:

NJNG will provide the following support to Participating Contractor:

- The ability to market the DI Program to interested NJNG customers;
- The potential to access qualified leads through our Contractor Portal; and
- Access to pre-approved DI Program marketing materials such as DI Program branding materials.

In consideration of the terms of this Agreement, the Parties mutually agree to the following:

Participating Contractor agrees to the terms and conditions on NJNG's Program forms and acknowledges and agrees that it will participate in the DI Program at the sole discretion of NJNG and is subject to removal from the list of participating DI Program contractors and discontinuation of eligibility to promote the DI Program to NJNG customers if it fails to comply with the terms of this Agreement or if NJNG, in its sole discretion, elects to terminate this Agreement with the Participating Contractor. In the event a Participating Contractor is removed from the Program, it shall immediately cease promoting its participation in the DI Program and shall promptly return any marketing material provided by the Program.

Participating Contractor Requirements:

As a condition of participating in the DI Program and accessing the DI Program benefits, Participating Contractor certifies and confirms that it will provide NJNG with the following:

- have been in business for more than one year;
- be registered with the [NJ Department of Revenue](#);
- be registered with the [state of NJ](#) as a business, and maintain any and all relevant license(s) required by federal, state, county, or municipal government for work in the trades that it undertakes supporting its participation in the DI Program; and
- Maintain insurance for the term of this Agreement and for a period of one (1) year thereafter as set forth below. The insurance shall be with a reliable insurance company acceptable to NJNG.

Insurance Description	OBRP Program Requirement
Workers' Compensation	Statutory Workers' Compensation in accordance with New Jersey state and local requirements
Employer's Liability	Amount not less than \$1,000,000 each occurrence or illness
Commercial General Liability	Amount not less than \$1,000,000 each occurrence
Business Automobile Liability	Amount not less than \$1,000,000 each occurrence
Excess/Umbrella	Amount not less than \$4,000,000 each occurrence OR Commercial General Liability and Business Automobile Liability in amounts not less than \$4,000,000 each occurrence
Professional Liability, Errors and Omissions, including cyber liability/technology errors and omissions/privacy liability	Required to hold an amount not less than \$2,000,000 each occurrence

- Participating Contractor shall name NJNG and its affiliates as additional insured on a broad form endorsement except for its statutory workers compensation coverage and professional liability coverage. The following language must appear on the certificate of insurance:

“New Jersey Natural Gas Company and its affiliates are named as additional insureds with respect to all liabilities arising out of or resulting from the named insured’s work, operations, products, or services (including completed operations).”

Participating Contractors shall also provide certifications of insurance to NJNG and its DI Program Implementers for each electric company that provides electric service in the overlapping service territory where Participating Contractor conducts business.

Participating Contractor shall:

- Promote the DI Program, but shall not represent to the customer that the customer is approved to participate in the DI Program until NJNG confirms eligibility. Additionally, NJNG will confirm approval or denial of the customer’s OBRP application status directly with the customer and will also inform the Participating Contractor associated with the project;
- Respond to customer inquiries within three (3) business days and ensure prompt and accurate reporting of project completions to NJNG as directed by NJNG;
- Conduct themselves in a professional and respectful manner when interacting with customers and any NJNG, and any Quality Assurance staff;
- Comply with DI Program terms, maintain satisfactory and professional customer interaction, provide timely completion of work and/or NJNG’s directives;
- Correctly and fully present DI Program features and benefits to the customer so that the customer may make an informed decision about the implementation of measures in his/her premises and refrain from unfair or inaccurate characterizations of NJNG;
- Comply with all NJNG’s marketing and communications guidelines. Participating Contractor shall not use any NJNG’s logo in promotions or advertising without the prior express written consent of NJNG. Participating Contractor shall not communicate with the media about the DI Program without written authorization and coordination from NJNG;
- Provide all customers with required customer and DI Program information materials;
- Perform a comprehensive building assessment. The assessment report must include a complete inventory of all qualified energy consuming equipment including but not limited to lighting, HVAC equipment, refrigeration equipment & building controls, etc. When applicable, equipment specific data must include model & serial numbers, manufacture date and overall condition. Participating Contractor is expected to propose comprehensive solutions to customer;
- Discuss customer’s building objectives, provide a comprehensive energy assessment or implementer of the building to identify inefficient, outdated energy consuming equipment;
- Develop a proposal for retrofitting or replacing outdated energy consuming equipment, which will be screened by NJNG to determine the incentive level for the project, and submitted and reviewed by Participating Contractor with the customer with NJNG support, in its sole discretion. The proposal shall clearly state the installed cost for each energy efficiency measure and estimated incentive for the project and Participating Contractor shall discuss process and create a projected schedule. In the event the contractor is not approved to perform a specific type of approved installation work, NJNG may select and provide a different Participating Contractor(s) to complete the measure-in-stallation work, or the customer may select from an approved network of Participating Contractors.

Participating Contractor shall:

- Maintain accurate business records relating to the installation of qualifying improvements for at least one (1) year following installation. Business records must be made available for verification by NJNG, if requested;
- Treat all customer personal data and utility usage information, including account numbers, electric and natural gas consumption data and electric and natural gas savings that may be shared with the Participating Contractor as confidential information and not disclosed to any party other than NJNG, in accordance with applicable law. The requirement for confidential treatment of customer information shall survive the termination of this Agreement;
- Provide notification within 24 hours of knowledge of a potential incident alerting NJNG when confidential customer personal information is potentially exposed, or of any other potential security breach;
- Ensure all work is in full compliance with the requirements of applicable laws, rules, and regulations of authorities having governmental and regulatory jurisdiction. Work must be performed by Participating Contractors approved by NJNG for participation in the DI Program.
- Be responsible for all the work performed by subcontractors, including ensuring that subcontractors adhere to DI Program policies and procedures;
- Provide, upon request, all information related to subcontractors providing work under DI Program, ownership information, nature of the relationship, and any other information reasonably requested by NJNG;
- Participating Contractors shall be subject to the “Joint Utility Contractor Remediation Procedures”, available with the [Contractor Portal](http://www.savegreenproject.com) at www.savegreenproject.com;
- Maintain effective procedures for quality control and resolution of customer complaints or disputes;
- Properly represent the relationship between the Participating Contractor and NJNG. Participating Contractor and its agents, employees and subcontractors (“personnel”) shall not represent themselves as employees and/or agents of, or certified by, NJNG. Neither Participating Contractor nor its personnel shall have, nor represent themselves as having, any authority to act on behalf of NJNG, or make any promise, representation, contract, or other commitment binding upon NJNG;
- Supervise, manage, contract, direct, procure, perform or cause to be performed all work to be provided to customers that may be eligible for the DI Program;
- Ensure all employees of Participating Contractor, who perform work under the DI Program, be free of drugs and the influence of alcohol. All such employees, when reporting for duty and while on duty, must be "fit for duty," defined as the appropriate mental and physical condition necessary to perform work in a safe, competent manner, free of the influence of drugs and alcohol. Possession of drugs, drug paraphernalia, and alcohol is prohibited at any customer premises; and
- Participating Contractor shall not allow any individual with a past felony conviction to perform work in the DI Program. Participating Contractor shall have a background investigation conducted on all of its employees who will be assigned to perform work for Participating Contractor in this DI Program. Participating Contractor shall require any subcontractors not under direct supervision of the Participating Contractor’s employees, performing work for customers under the DI Program to similarly conduct a background investigation on all subcontractor employees who will be assigned to perform such work. Such background investigation shall, at a minimum, include a complete criminal history records check conducted no more than one (1) year prior to assignment to the DI Program, which shall report all felony convictions within the previous seven (7) years. Such background investigation shall be conducted by a competent professional organization and shall be in compliance with the Fair Credit Reporting Act and applicable state laws.

Implementation of Work & Payment of Incentives

Customer shall be responsible for its share of the cost for each measure to be installed pursuant to the scope of work outlined in the contract documents. Upon NJNG's confirmation that installation of the project has been satisfactorily completed, NJNG will arrange for payment of the project incentives to the customer, or, if authorized to do so by the customer, directly to the Participating Contractor. NJNG quality-assurance and/or quality-control inspectors and/or NJNG, in their sole discretion, may schedule and conduct a post-installation inspection to ensure satisfactory measure installation. Incentive checks will be sent within sixty (60) days after NJNG confirms satisfactory installation.

Post-Installation Work Verification:

NJNG or its agents may conduct random field inspections on work performed under this Agreement in order to verify work performed and assess the quality standards sought by this DI Program. If said inspection determines that actual field conditions do not corroborate conditions indicated on a Participating Contractor's and/or customer's application, customer may become ineligible for the DI Program. Participating Contractor's failure to meet minimum DI Program standards and correct deficiencies may lead to the Participating Contractor being removed from the DI Program and rendering the Participating Contractor ineligible to continue to participate in the DI Program.

All serious health and safety non-compliance issues associated with the project must be rectified by the Participating Contractor immediately. Participating Contractors are subject to the "Utilities' Contractor Remediation Procedures", which is posted on the SAVEGREEN [Contractor Portal](#).

Warranty

Participating Contractor warrants that all work provided by its employees, subcontractors, and/or representative shall: (i) be of high quality; (ii) be free from any defects; (iii) be suitable for the purposes for which it was intended; (iv) be properly installed; (v) result in dependable service and performance as specified in, or that may reasonably be inferred from, the contract documents; (vi) comply with established industry codes and standards; (vii) comply with sound industry and work practices; (viii) comply with all laws; (ix) not violate any intellectual property right or other proprietary interest; and (x) otherwise fully conform in all respects to the contract documents.

Participating Contractor also warrants that all material provided hereunder, including all components incorporated into the work, shall be new and free from any liens, encumbrances, security interests, and defects in title. Participating Contractor warrants that any system(s) provided as part of the work (including but not limited to heating, wiring, piping, cooling, plumbing, electrical, control, lighting, alarm, or computer systems) shall operate properly and dependably and be compatible with other existing or connecting systems. Participating Contractor warrants that any material provided as part of such system(s) shall be compatible with the system(s) and its components.

During the progress of the work, Participating Contractor shall, at its sole cost and expense, promptly repair, replace, or re-perform any work, including material, in whole or in part, that is rejected by the NJNG as failing to conform to the Agreement. Participating Contractor shall also bear all expenses required to fix any work that is impaired, destroyed, or damaged by such non-conforming work or the repair, replacement, or re-performance of such non-conforming work. For one year from the date work has been accepted by NJNG, or the date work has been placed into commercial use, whichever is later (the "Warranty Period"), Participating Contractor warrants that it will promptly repair, correct, replace, and re-perform any said work that fails to conform to the Contract at no additional cost to the NJNG, the electric utility or the customer. All such warranty work shall be performed on a schedule acceptable to the customer and NJNG and shall be warranted for one (1) additional full year from the date of repair, correction, replacement, or reperformance of such work, which one (1) additional year shall be considered the Warranty Period. NJNG's acceptance of said work or placement of such work into commercial use, or final payment therefor, shall not relieve Participating Contractor of its responsibility to provide conforming work.

Written communication to the Participating Contractor specifying defective or otherwise nonconforming work that appears either during the progress of the work or during the Warranty Period after acceptance of the completed work for use or operation shall be deemed sufficient notice to Participating Contractor to promptly remedy the defect or nonconformity as required by this Agreement.

If repair, correction, replacement, or reperformance of defective or otherwise nonconforming work by Participating Contractor would, in the NJNG's opinion, be impracticable or disadvantageous to the customer, NJNG, or the overlapping utility, the respective entity that paid for work shall be entitled to a full refund of the price paid for such defective or nonconforming work.

The liability of Participating Contractor shall extend to all of NJNG, the overlapping electric utility and the customer's damages caused by the breach of any of the foregoing warranties and shall include, but not be limited to, the cost of removal and replacement of nonconforming material, shipping of material, correction of work, labor expenses resulting from the breach of the warranty, and the cost of removal and reinstallation of other material or work made necessary thereby.

Participating Contractor shall identify in writing all third-party or original equipment manufacturer warranties that Participating Contractor receives in connection with the work and will pass through to the customer the benefits of all such warranties (the "Pass-Through Warranties"); provided, however, that nothing in this section will reduce, or limit, or expand Participating Contractor's obligations under this Agreement.

Indemnification and Limitation of Liability:

In no event shall NJNG or its partner electric utility, and their respective affiliates, officers, directors, agents, employees, representatives and program implementers ("Indemnitees") have any liability for claims of any kind, whether based on contract, tort (including negligence and strict liability), or otherwise, for any loss or damage sustained or incurred by any third party or the Participating Contractor relating to this Agreement or the performance of services or participation by the Participating Contractor in the DI Program. The Participating Contractor hereby releases and discharges NJNG and all other Indemnitees from all liability for such claims.

The Participating Contractor shall, to the fullest extent permitted by law or regulation, assume all liability for and agree to indemnify, defend (at NJNG's option) and hold harmless NJNG and all Indemnitees from and against any and all liabilities, losses, claims, damages, suit charges, fines, penalties, costs, expenses (including attorney's fees and costs) demands and causes of actions of every kind or character arising or alleged to have arisen out of any claims (just or unjust) for damages for personal injury, including death, to any person, for damage or injury to property, including loss of use; and from any and all resulting damages, expenses, costs and fees, arising out of or in any way occurring incident to the performance of the Agreement and/or the acts or omissions of the Participating Contractor, its employees and/or subcontractors. Additionally, the Participating Contractor agrees to assume all liabilities or attorney's fees and other costs incurred by the NJNG arising out of the NJNG's efforts to enforce the provisions of this section. Where used in this section, the term "Participating Contractor" shall also include any subcontractor or any person, firm or entity directly or indirectly employed by or under contract with the Participating Contractor, its subcontractor, or its supplier.

The indemnification obligations of the Participating Contractor provided for herein shall apply irrespective of any partial or contributed negligence or alleged partial or contributed negligence of the NJNG, except to the extent, if any, that the provisions of New Jersey Law require otherwise. The Participating Contractor shall nevertheless remain liable hereunder because the negligence of a party other than the NJNG whether or not NJNG is partially negligent.

The indemnification obligations of the Participating Contractor provided for herein shall in all events survive performance of the other obligations of the Participating Contractor under the Agreement and shall survive termination of the Agreement for any reason.

Prevailing Wage and Public Works:

If the work to be performed qualifies as a “public work” under the New Jersey State Prevailing Wage Act, N.J.S.A. 34:11-56.25 et seq. (the “Act”), Participating Contractor will adhere to and comply with the Act and shall require the same of its subcontractors. These obligations include but are not limited to: 1) workers employed in the performance of the Agreement shall be paid not less than the prevailing wages applicable, and 2) Participating Contractor will employ on the site only individuals who have successfully completed all OSHA-certified safety training, if any, required as a prerequisite for the particular work to be performed on the site. If the work falls under the jurisdiction of the New Jersey Division of Property Management and Construction, Participating Contractor agrees to comply with and to require its subcontractors to comply with all requirements of that agency and any related law Trademarks and other Intellectual Property:

- NJNG reserves all ownership rights in NJNG’s Trademarks (as defined below). Except as expressly provided in this Agreement, NJNG does not transfer or license any trademark or other intellectual property rights to Participating Contractor.
- NJNG requires pre-approval for all marketing that uses NJNG’s Trademark or makes reference to New Jersey Natural Gas Company or The SAVEGREEN Project. Participating Contractors may use pre-approved marketing material that uses NJNG trademarks and other intellectual property solely for the purposes contemplated by this Agreement. The Participating Contractor shall not register, apply to register, or claim any rights to any trademark that contains NJNG’s Program materials.
- Upon expiration or termination of this Agreement, Participating Contractor agrees to immediately cease the use of and shall not thereafter use NJNG’s Trademarks.
- For purposes of this Agreement, NJNG ‘s Trademarks shall include DI Program marketing materials that are now or hereafter owned, claimed, adopted, acquired, or used by NJNG.

Tax Liability and Credits:

NJNG is not responsible for any taxes which may be imposed on the customer as a result of measures installed under this program. Each customer must provide a valid Federal Tax I.D. number.

Code of Conduct:

Participating Contractor shall perform the work and services in accordance with New Jersey Resources’ Code of Conduct, which may be amended from time to time and can be located at <https://investor.njresources.com/governance> and made part of the Agreement. Participating Contractor warrants that all work and services shall be performed in full conformity with the skill and care that would be exercised by those who perform similar services at the time the services are performed, in accordance with accepted industry practices and in compliance with all applicable governing laws and regulations. Participating Contractor shall not act in a manner, which, in NJNG’s opinion, has or is likely to have a material adverse effect on NJNG’s business, operations or reputation.

Program Terms and Notice:

NJNG reserve the right to make changes to the DI Program upon notice to the Participating Contractor. Such notification shall be made by email and posting on the SAVEGREEN Contractor Portal website. Regardless of the execution date, this Agreement will expire on June 30, 2024, unless otherwise extended in writing by the Parties or terminated earlier by NJNG for cause or convenience. Any notice required or permitted to be given under this Agreement shall be deemed properly given at the time it is submitted via electronic delivery (email) to savegreenlegal@njng.com or at such other addresses as may be specified in writing and by the Participating Contractor, or at such other addresses as may be specified in writing.

NJNG will have sole discretion to decide on the final resolution of any issues including but not limited to eligibility or incentives. NJNG reserves the right to change, modify, or terminate this program at any time without any liability except as expressly stated herein. NJNG will honor all written commitments made in a scope of work provided to customers prior to the date of any change, modification, or termination of this program, provided that project installations are fully completed within the time specified in the scope of work.

Survival:

The representations, warranties, and covenants contained and/or made in this Agreement shall survive the termination of this Agreement and the performance of the work contemplated by this Agreement.

Required Supporting Documentation:

As a condition of participating in the DI Program, Participating Contractor certifies and confirms that it will provide NJNG with supporting documentation for the following:

1. Completed copy of this Contractor Participation Agreement
2. Completed W-9 form
3. New Jersey Division of Revenue Registration (Copy of NJ Business Registration Certificate from the NJ Division of Revenue website for your Company. https://www1.state.nj.us/TYTR_BRC/jsp/BRCLoginJsp.jsp)
4. New Jersey Licenses (e.g., HVAC Contractor) applicable to the work your company will perform under the DI Program
5. Certificate(s) of Insurance
 - a. General Liability Certificate of Insurance, employer's Liability, and Automobile Insurance with minimum of \$1,000,000 coverage, \$4,000,000 of excess of Umbrella, and \$2,000,000 professional liability.
 - b. Certificates must be provided for **New Jersey Natural Gas** and all electric utilities that provide overlapping electric service in NJNG's service territory
 - c. Workers Compensation Certificate of Insurance
6. Minority, Woman, or Veteran's Business Enterprise (MWVBE) Certificate (if applicable)
7. Any supporting documentation if doing business under another name.

NJNG will review the submission and either approve Participating Contractor or identify deficiencies in connection with the application within a reasonable time. Participating Contractor is expected to provide updated documentation for any expiring documents, including Certificates of Insurance, licenses, and certifications. Failure to continue to provide updates of required documentation may result in dismissal from the DI Program.

Documentation should be emailed to contractorsupport@njng.com.

Additionally, the Participating Contractor agrees to participate in an initial program training session, plus continuing training as required in NJNG's reasonable discretion. All training requirements for the DI Program may be in addition to other training requirements for other NJNG administered programs.

If you have any questions, comments, and/or need clarifications regarding the DI Participating Contractor application, please contact us at SAVEGREEN-Com@njng.com. We are looking forward to working with you, as we continue to leverage the DI Program to assist you in building your business.

Agreement and Signature

By submission of this application, the applicant and person signing on behalf of any applicant subscribes and affirms under penalties of law that the statements made in this application for inclusion as a Participating Contractor in the DI Program have been examined and to the best of his/ her knowledge and belief are true and correct. The applicant affirms that no person named in this application is subject to disqualification under the terms and guidelines of the state of New Jersey unless herein stated. The applicant understands that by signing this application it consents to any other inquiry to verify or confirm the information herein. The applicant understands that this application for inclusion as a Participating Contractor does not guarantee that inclusion will be granted but will be used in the determination of eligibility for inclusion. As a Participating Contractor you acknowledge you are acting as an independent entity to provide Energy Efficiency services for the Direct Install Program and have not entered into a contractual agreement with New Jersey Natural Gas. The applicant consents to any other inquiry to verify or confirm the information that has been provided herein and hereby authorizes any reference identified or provided to NJNG by applicant to release to NJNG any information pertaining to past or present relevant work. Applicant hereby releases from all liability or damage, NJNG and those persons, agencies, or organizations who may furnish such information.
